

BACKFLOW CERTIFICATION RENEWAL

The NYSDOH approved Renewal class consists of an Introduction and Orientation, a two hour Lecture and then the Laboratory Examination. The class is only for current EPA test procedures.

THERE IS NO CLASSROOM PRACTICAL INSTRUCTION OR PRACTICE TIME DURING THE CLASS!

The purpose of the class is for you to demonstrate your ability to test DCV's and RPZ's. This is NOT a refresher course.

You must come to the class prepared to test DCV's and RPZ's for the Practical Exam.

PRACTICE TIME WILL BE AVAILABLE PRIOR TO THE BACKFLOW CERTIFICATION RENEWAL

We will make time available for supervised practice. This practice time is offered by Davis & Warshow. It is not part of the renewal class and is not part of the new NYSDOH approved renewal process. This practice time is solely to give you a chance to practice testing DCV's and RPZ's with an Instructor present.

The practice time will cost \$150 for a two hour session. The sessions will be from 1pm to 3p. The following are the practice dates prior to each class;
